SCHOOL MADE GOOD SHOWING FOR THE TERM

So Says Principal in Report To Board—30 Pupils Now Writing on Exams—Rooms To be Changed

A very quiet session of the school board was held at its regular meeting last Monday evening. Those present were Chairman Bryant and Trustees Hayes, Barber Patterson and Riddell.

It was decided to retain the janitor during the summer months to look after the grounds and building at a salary of \$30.00 per month. The trustee officers services were dispensed with during the holidays.

Principal Lager asked permission of the board to change some of the rooms around so that the lower grades be down stairs and the higher ones upstairs. The board authorized the change.

The secretary was instructed to look up the insurance policies to see that all were in order.

The principal submitted a verbal report of the work done during the term in which he stated that good progress had been made in all the departments and that all the teachers had had a great interest in their work. Owing to financial conditions the equipment for manual training in the lower grades was considerably curtailed. As a result not as much of this work was taken up as was desirable. He also reported that the pupils were writing on examinations in grade 8; nine in grade 9; seven in grade 10; and three in grade 11. He also gave a list of pupils promoted in the lower grades.

After a few small accounts were named the board adjourned.

Reddick Family Start on Long Wagon Trip

A large crowd of relatives and friends turned out last Monday morning to bid farewell to Mr. and Mrs. W. J. Kink and family who left for an extended trip overlaid by horse and wagon. For the past few weeks Mr. Kink has been getting his wagon prepared for the journey and when he left Wednesday morning it looked as though nothing had been forgotten to provide for the comforts of his manly during the trip.

The outfit consisted of two wagons. One was a large lumber wagon with a canopy top fitted up for sleeping accommodation, and the other a double decker, the lower part of which was used for storing provisions, and the top for other necessities. On the whole the outfit was most complete.

It is their intention to travel in all about two thousand miles in the manner. From here they struck west and will cross the international boundary into Montana at Couer. From there they will go to the Yellowstone National park where they will spend about two weeks. Then they go east and expect to reach their destination at Greenville, Ohio, early in September. This is not Mr. Kink's first experience in a trip of this kind, so that there is little doubt he will make this one in safety and comfort.

German Sympathizers At Work in Ontario

The Ottawa factory of the Peabody Company, Limited, located in Walker, was partially wrecked by the explosion of a bomb. The company is said to have just completed the work of 115,000 British uniforms.

Shortly after the explosion in the several factory at Ottawa dynamite was discovered under the rear of the Windsor armory. The dynamite had been attached to a steel door which had been set for 3:15 a. m., but the fuse had burned out. It is said that 200 men slept in the armory and had the dynamite exploded the whole building would have been wrecked.

It is believed the bombs were placed by German sympathizers in Ottawa. The damage done is estimated at between \$10,000 and \$100,000.

The Ottawa company has been ordered to shut work on a large consignment of shirts for British soldiers, after completing the order for uniforms.

REDFCLIFF, ALBERTA, FRIDAY, JUNE 25, 1915.

Alberta Grain Grower Gives Advice

"Southern Alberta is the best example in the world to grow barley and similar crops," declared Nick Tallenger, grand old man of the farming community of the south, and winner of prizes in numerous fairs for barley and wheat all over the North American continent.

This speaker, who comes from historic Verdun, which the Hun tried to capture early in the war, had had experience in farming in Oregon and in other countries, but he declared that southern Alberta has them all skinned. All that is necessary is to be efficient in farming as in other arts.

Among the most conspicuous of the awards given Mr. Tallenger may be mentioned the following, won against competitors from all over the United States and Canada: Zephyrus Dry Farming contest, a 1915 silver cup; Tulsa Dry Farming contest, a five h. p. gasoline engine; Whitby, Dry Farming, a five h. p. gasoline engine; San Francisco fair, a gold medal. It may be pointed out that a bushel was for the continent's champion, and that the prize was taken in four successive years. He also has won the first prize at the World's Fair in London for the last three years, while at Winnipeg in 1913 he won, against all Canadian competitors, the prize for wheat, and was awarded \$2500. Other awards have been so numerous that Mr. Tallenger cannot recall them all.

It may be said to raise the staff, Mr. Tallenger declares. Every year most of his barley is sold to the C. P. R., to be used for wheat, and he has sold to individual farmers, while what remains is sent to Hugh Baird & Co., who pay him far more, after he pays the freight, than he can secure in Calgary. These people, he says, have told him that they will take all the barley raised in Southern Alberta, if he can get it, so favorably do they regard his product.

Another instance occurred a year or two ago when wheat sold at 75 cents a bushel. Minneapolis firm insisted on getting two cents of wheat raised by him, and so badly did they want it that they paid him \$1 per bushel, 25 cents over the market price.

Mr. Tallenger attributes his success largely to the fact that he strives to do a little better than any one else, and that his farmers generally, owing to the fact that barley eradicates weeds, now that his barley in twenty fields, Mr. Tallenger says he is on his best summer-fallow land.

But the real secret, Mr. Tallenger declares, of successful grain cultivation in the south country is summer-fallowing. The land should be prepared for the summer before the crop is next sown. There should be no plowing to do then. Often there are only a few days of good seeding weather in the spring, and if the farmer has a lot of plowing to do then, he cannot get his seed sown in the most favorable circumstances. Besides, summer-fallowing is best adapted to the soil.

Many farmers, too, have too much land to cultivate properly. A half section is ample. If too much is attempted the fields cannot be gotten in the right condition and but mediocre results will be obtained. While Mr. Tallenger himself has two sections he has several big ones to help him, but even so, he is contemplating selling some of his land.

This year Mr. Tallenger has 600 acres in wheat and 150 acres in barley and, indications for an excellent crop, he believes, are good.

Number of Aliens Going to the States

Thousands of papered aliens from Alberta and British Columbia have been smuggled over the border into Washington and Idaho, despite the efforts of immigration agents to stop the influx, according to a statement made at Spokane by Henry M. White, commissioner of immigration.

"While hundreds seeking to enter the United States from Canada are being turned back, thousands have eluded the small force of inspectors," he declared. "Where it is not felt, the law is broken here would present a problem difficult to solve."

Recently he caught one man who was smuggling 350 aliens in one batch into this country. We were able to present a clear case against him and he was sent to prison. But for every alien caught, entering the country, there are a dozen who are not apprehended.

To Make Appeal For Red Cross Funds

The Reviewer trusts that a direct appeal for support to the Patriotic Fund, Red Cross Fund and Belgian Relief will shortly be made throughout Southern Alberta, and that this district will not be overlooked. While the redoubt of the conflict in the east has been decidedly generous, the need is very great indeed, and just increase as the war continues. We understand that the committee in charge will co-operate with the United Farmers of Alberta and other organizations, and meetings will be held in the principal centres where the purpose of the funds and the methods of their distribution will be discussed in detail. While such subscriptions are highly desirable, it is likely that an opportunity will be given to farmers to make donations in grain to be delivered after harvest. This will enable our agricultural population, whose patriotism and generosity is not second to that of any other class, to have a share in this good work which might be lost for them at the present time if their offerings were accepted. Formal announcement will be made at an early date.

Make Good His Escape Over The Line—Proof Is Not Sufficient to Convict and Case Was Dismissed

Fred Nubel, a German resident of this town for the past two years, appeared before Magistrate Henderson and Holt last Monday morning on the charge of assisting another German named Summers to get out of the country.

Although it was brought out in the evidence that Nubel and Summers were in the very infancy terms and that Nubel had been in possession of the Summers the day before his disappearance, yet it could not be definitely proved that Nubel had assisted Summers money or had supplied him with any means of making his escape. The fact being the case their work was dismissed the case with costs.

The cause leading up to Nubel's arrest was such as to justify the belief that he was in the act of trying to locate Summers the police naturally went to Nubel. At first he gave him the benefit of the doubt, but as he was unable to give any knowledge of Summers or his whereabouts, afterwards admitting that he was with him the previous day, and also that he knew good deal, he was shipped to him in St. Paul.

His work, in summing up, however, from the accused, the innocence of the charge laid against him. While the charge had not been proved, his actions in connection with the affair left him open to suspicion. However, they would give him the benefit of the doubt, advising him that during the present troublesome time he should be very careful of his words and his actions, also advising him that although he is a citizen of our country's enemy he would be quite safe here so long as he behaved as an alien should. They drew his attention to the fact that although the war has been in progress for nearly a year none of the aliens in this district had been interfered with in any way, but the moment they assume the freedom and privilege of citizens they would be severely dealt with.

General DeWet Is Given Heavy Sentence

Sentence of six years' imprisonment and a fine of two thousand pounds was imposed on General DeWet, one of the best known of the South African rebel against the British government, who was found guilty of treason on eight counts.

General DeWet was commander-in-chief of the Free State forces during the Boer war, in 1904, when he rebelled in the Orange Free State and Western Transvaal against Great Britain. He was promptly captured, however, and the trial which resulted in the sentence was begun on June 10.

ALBERTA ASSOCIATION FOOT-BALL LEAGUE.

Office of Secretary-Treasurer, Edmonton, May 24th, 1915. To the Editor Reddick Review:

Sir: Will you kindly grant me a little space in your paper, in which I may have the privilege of placing before any of your readers who are interested in Association football, the aims and aspirations of the Alberta Association Football League, of which I have the honor to be Secretary-Treasurer.

The Provincial League was formed in the year 1909, for the purpose of fostering and encouraging the game of soccer throughout the Province of Alberta among amateurs.

To bring and keep all Association Football Leagues in Alberta under one parental association.

To decide the championship of Alberta in soccer, intermediate, junior and juvenile competition.

To obtain and preserve a uniform in the laws and rules of the game for the Province of Alberta.

So far the membership has been confined to the seniors, and to the following places, Edmonton, Red Deer, Lloydminster, Lethbridge, Calgary and Medicine Hat.

For the senior competition the league have a magnificent trophy, "The Bennett Shield," which was presented by A. Bennett, of Calgary.

The provincial officials are earnestly desirous that a wider and more general interest may be manifested throughout the province, and that these lines may catch the eye of some soccer enthusiast who will enthusiastically feel confident that he can organize a team or teams in his town.

The annual membership fee for one club is \$10.00 for associations or leagues of six clubs or fewer, to increase at the rate of \$1.00 per club. Wherever possible it is good policy for teams in towns to close themselves to any other team to form a league, the advantages to be gained from doing this are many. (a) A considerable saving in the membership fees. (b) The competition is keener, and the interest better sustained.

Annual general meetings are held at certain appointed places on each Monday, the first of these being for 1916 meeting held Red Deer.

Any further information that may be required, or any of the league is possible for the league officials to give is at the command of any who desire to organize.

Yours, etc., TOM S. S. DAVIES, Secretary-Treasurer.

FRED NUBEL CHARGED WITH HELPING ALIEN

Make Good His Escape Over The Line—Proof Is Not Sufficient to Convict and Case Was Dismissed

Fred Nubel, a German resident of this town for the past two years, appeared before Magistrate Henderson and Holt last Monday morning on the charge of assisting another German named Summers to get out of the country.

Although it was brought out in the evidence that Nubel and Summers were in the very infancy terms and that Nubel had been in possession of the Summers the day before his disappearance, yet it could not be definitely proved that Nubel had assisted Summers money or had supplied him with any means of making his escape. The fact being the case their work was dismissed the case with costs.

The cause leading up to Nubel's arrest was such as to justify the belief that he was in the act of trying to locate Summers the police naturally went to Nubel. At first he gave him the benefit of the doubt, but as he was unable to give any knowledge of Summers or his whereabouts, afterwards admitting that he was with him the previous day, and also that he knew good deal, he was shipped to him in St. Paul.

His work, in summing up, however, from the accused, the innocence of the charge laid against him. While the charge had not been proved, his actions in connection with the affair left him open to suspicion. However, they would give him the benefit of the doubt, advising him that during the present troublesome time he should be very careful of his words and his actions, also advising him that although he is a citizen of our country's enemy he would be quite safe here so long as he behaved as an alien should. They drew his attention to the fact that although the war has been in progress for nearly a year none of the aliens in this district had been interfered with in any way, but the moment they assume the freedom and privilege of citizens they would be severely dealt with.

Wants Peace With Belgium and Serbia

Germany and Austria have offered to make a separate peace with Belgium and Serbia, according to the newspaper "Kronenblatt." This newspaper says that the Germans have offered to evacuate Belgium and purchase the Belgian Congo possessions for conditions that the troops of the allies shall not be allowed to cross Belgian soil. To Serbia, the offer of the Germans is to make a port on the Adriatic sea has been made.

Western Wheat To New Zealand

One million bushels of Canadian wheat will be turned eastward to Montreal during the next month from stocks in the west. This is the second huge wheat supply purchased by the department of trade and commerce for the Dominion of New Zealand, to relieve the shortage in that country. During the winter 300,000 bushels of Canadian wheat went to New Zealand via St. John and 100,000 via Vancouver.

More Minnesota Counties Go Dry

Six counties in Minnesota with 61 towns voted dry last Monday in county-wide elections, increasing to 33 the number that has voted saloons under the recently enacted county option law. The counties that voted dry are Chippewa, Fairbairn, Houston, Mille Lake, Pine and Stevens.

Nearly a Bad Blaze In Broadway House

The timely arrival of Congregational Oates with a bucket of water nipped in the bud what otherwise might have been a bad fire. Shortly after noon on Tuesday when Mr. Oates was at his work in the city he saw a fire in the named "Yester came running into the shop and told him that the house next door, on the corner of Main and Broadway, was on fire. On arriving in the kitchen it was found that a pile of paper had been placed in the corner and had been set on fire. As the inside of the kitchen is not plastered the boards had become ignited and the flames were just starting to make good headway when Mr. Oates and James Elliott arrived with pails of water. Fortunately this was enough to extinguish the fire.

Frightened Citizen Jumps Through Window

What at first appeared to be a German raid occurred at a shack on quality hill. While two friends were enjoying a quiet cup of cocoa in the shack it was bombarded with six shots, and panic accompanied by most unseemly music. The visitor to the shack was so scared that in his hurry to escape he jumped through the window, taking with him the sack and other attachments. Fortunately he was not seriously injured. When the place was investigated it was found to be only an innocent pratt on going to celebrate the 18th anniversary of one of the party.

Russians Being Driven Back by the Enemy

The fall of Lemberg is being followed, according to Berlin advices, by a general Russian retreat over a wide front. In the Lemberg district the victorious Austro-German armies are said to be driving the Russians eastward, while to the west the armies of Emperor Nicholas are falling back from the country northwest of Przemyśl near the Russian border and as far north as the city of Kholm. In Russian Poland, about 100 miles south of Warsaw.

Box Springs Annual Picnic

The Farmers Union, Terra Nova school district and Box Springs school district, are uniting in arranging a basket picnic for July 1st to be held at the head of Elbowe river, about three miles east of Box Springs hall. A good program is being arranged to consist of school program, an athletic competition between the two schools, foot racing, jumping, tag-war, etc. Besides these attractions and fun there will be some of the Bally Hoop will be there with their ponies for racing, etc. Come and see Willie ride the night and bring a C. P. F. school teams leave the Box Springs hall at 11 o'clock.

Arlington Lot Case To Be Re-considered

A special meeting of the council was held last Monday evening for the purpose of again considering the assessment and receiving the town solicitor's report regarding the application of Burns & Hollinger re-charging some lots in Arlington back to farm lands. Judge Carpentier had already given his ruling in this case but as the town's side of the question was not presented to him, through some misunderstanding, the council at its last meeting authorized Town Solicitor Blair to file a protest. This was done with the result that the case is to be re-opened, when the town will be allowed to present its side of the case, and possibly a finding of the hearing nothing further was said regarding the revision of the assessment roll as prepared by the assessor.

Men's Club Hold Quarterly Meeting

The quarterly meeting of the Men's Club was held in the club rooms last Monday evening. Although the membership is not so large as it was at the last meeting owing to the fact that a number have recently left town, there was a good turnout. The falling off of members has been due to the fact that the club going but the committee are to be complimented on doing well as they have. They reported that during the quarter a number of socials and concerts had been held, the proceeds from which had considerably increased the club's treasury. Although the library loaned by the university of Alberta has only been used by a few members, the club being well patronized, some 60 readers are already taking advantage of it. The library is entirely free and is open to any who may desire to use it. The club rooms are at the disposal of farmers and their wives, and a private room is set apart for the ladies.

NUMBER 201

CAN'T GET GOVT ELEVATOR HERE THIS SEASON

This is Information Received From Farmers' Elevator Company—Too Late In Starting Arrangements

For some time past Otto Shipley, acting secretary of the board of trade has been endeavoring to bring to a successful issue the building of an elevator at Redcliff. He has been in communication with the provincial government and the Alberta Farmers' Co-operative Elevator Company with the hope of being able to take advantage of the offer made by the government with regard to the building of elevators throughout the province. For a long time it looked as though good and promising progress was being made but on yesterday's mail Mr. Shipley received a letter from the secretary of the Farmers' Co-operative Company informing him that "in so far as the construction work is concerned we are owing to the fact that our contracts for this season's work have been let, also owing to the fact that the group members is considerably advanced, and there is every likelihood that the harvest will be fairly early, we regret very much that it is not possible for us to make it a point of erecting an elevator at Redcliff this season."

Notwithstanding this information the meeting previously arranged to be held at Box Springs tomorrow (Saturday) evening will be held when arrangements will be made to get things in shape to start this movement as soon as possible either this fall or next spring.

Men's Club Hold Quarterly Meeting

The quarterly meeting of the Men's Club was held in the club rooms last Monday evening. German Sympathizers At Work in Ontario

The Ottawa factory of the Peabody Company, Limited, located in Walker, was partially wrecked by the explosion of a bomb. The company is said to have just completed the work of 115,000 British uniforms.

Shortly after the explosion in the several factory at Ottawa dynamite was discovered under the rear of the Windsor armory. The dynamite had been attached to a steel door which had been set for 3:15 a. m., but the fuse had burned out. It is said that 200 men slept in the armory and had the dynamite exploded the whole building would have been wrecked.

It is believed the bombs were placed by German sympathizers in Ottawa. The damage done is estimated at between \$10,000 and \$100,000.

The Ottawa company has been ordered to shut work on a large consignment of shirts for British soldiers, after completing the order for uniforms.

MANUFACTURERS AND CONSUMERS

An Excellent Statement—How the War Strengthens the "Made-in-Canada" Appeal

Under the heading, "They Canadian Goods," a well-known Canadian periodical has this following, sane and well worded, appeal in a recent issue: "It is to longer a commercial appeal. It is the rallying cry of combatants freed from imperial and nationalistic passions. We must furnish Britain and our friends, at war with food and supplies. More land should be brought under cultivation, and part of our urban population transferred to the task of bringing wealth out of the soil. The money received for our products will go far to provide for our necessities and, it wisely circulates in our own country, will alleviate distress from unemployment. This is the perfect circle that will benefit our farmers, keep our factories in operation, provide work, money, and retain money. It is the duty of Canadian citizens to spend every possible dollar at home during this war. Sending money abroad in payment for foreign goods indirectly helps the enemies of Britain, because each nation weakens another. Canadian goods should be organized by the citizens of every community. The support of the local press, public officials and consumers should be enlisted. It is evident that a flood of goods from neutral countries, deflected from the state of belligerence, will threaten to overwhelm our markets."

Develop Our Resources
While our fellow-countrymen fight in Europe, let us fight at home to develop the sources of our national wealth so that they may strengthen us in time of need. All that stands between our safety and prosperity and the colony-hungry Germans is a group of ships in the North Sea. The tremendous struggle is only begun. The end is already in sight. The struggle and its after-effects will tax us to the limit of endurance. Canadian producers and consumers must stand together, watchful of one another's interests, ready to sacrifice personal inclination, willing to forego convenience. This is to no time to indulge whims, prejudices or fancies in favor of foreign manufactures. Neither should citizens who have means economize too severely. Spend now, keep factories going and re-trench later, via such a crisis every nation has experienced by the manufacturers, wholesalers and retailers, and, if necessary, by the Government, to keep down to the lowest possible figure the price of articles imported in Canada which Canadians are asked to buy for patriotic reasons. Manufacturers and other producers must show consumers that they are willing to dispense temporarily with profits and will be satisfied to make ends meet, by restricting their purchases to Canada. Consumers are bound to reap the advantageous lowering of prices which is the natural result of larger production; they will escape the inevitable levies and possible confiscations which must follow widespread unemployment. Fight the enemy by buying at home.

Unite For Home
Those of us who remain in Canada can hamper the enemy by making our own country as near as possible self-sustaining, and producing from our natural resources the greatest possible amount of wealth. The farmer is the first instance, the miner, the lumberman, the fisherman and the manufacturer is given an opportunity to serve their country in their own calling. Let us present a united front for "Made-in-Canada" production. Begin by patronizing the stores in your own town. Ask for goods made in your own district if you have factories therein, but at any rate buy "Made-in-Canada" goods, and if what you want is not made in Canada be sure to buy within the Empire.

General News Notes From Various Points

Newspapers in Rome declare that the Italian invasion of Austria thus far has resulted in the occupation of twice as much territory as was offered by Austria as the price of Italy's neutrality.

The French government has admitted the seizure of aeroplanes in the recent raid on Karlsruhe. The 25 machines were fired on by high angle guns all the way across Lorraine on the return journey. One was forced to descend and the other after being peppered with bullets, collapsed and fell like a stone.

Glen H. Curtis, the American aviator, has been commissioned by the British government to produce a larger and more powerful aeroplane for offensive service. The new machine is a landplane of 200 horse power, and is in course of construction at Curtis' new factory at Toronto. The lines of the biplane will be much like those of the America, but designed that she will carry large loads of explosives and fuel.

The position of the Italian troops on their battle front in Tyrol indicates that a decisive movement may be expected at any moment. Gradine is already being bombarded and the march on Trieste is only a matter of days, according to military authorities.

On board the steamer Casandra of the Dominion line, which departed last Monday were four wounded officers of the first Canadian contingent who had been discharged home. Captain T. O. Kidd, of Barry's Rapids, Ont., of the second battalion, Major W. W. Nashby, Windsor, Ont., Major J. J. Robinson of Maple Creek, Sask., and Captain Huggins, of Ottawa.

According to news received in London the Canadians are now in possession of trenches formerly used by the Germans. They are eight feet deep with brick floors, but are only two and one-half feet high. They display the elegant masonry in which the Germans fortified themselves during the winter months.

Robert Hetherington and Henry Wilson, of the firm of Wm. Jackson & Co., Edinburgh, who were charged with supplying part of a cargo of iron ore to Krupp's and other German manufacturers, some time after the war was in full swing, were given six months' imprisonment and a fine of \$10,000 each.

It has been extremely noticeable since the beginning of the German submarine activity around England that no British transports carrying mail to France have been torpedoed. It has been learned that a wire cable netting with meshes 18 inches square has been stretched from Folkestone to Cape Grizet. The cable is clamped to bergs in sections and is submerged to a depth of 160 feet. This net could take a submarine "headline" that the German "U" boats cannot pass.

TAILORED SUITS TO MEASURE

BY SPECIALIZED TEAM WORK
SUITS ARE MADE IN FOUR DAYS

In One Year Semi-Ready Shops Tailored Half-a-Million Worth of Clothes to Special Order

"The growth of the Special Order business in Semi-ready tailoring is evidenced by the fact that within five years the growth in this particular department was over 500 per cent—a wonderful increase."

"Semi-ready Special Orders are made to measure in four full working days at the shops in Montreal. Not a moment is lost after the delivery of the order and measurement at the office on Guy street."

"Inside of an hour the web of cloth settles in on the cutter's board. The coat goes to the cutmakers, the vest to the vest tailors and the trousers to another floor, and on the afternoon of the fourth day all three garments reach the inspection room within an hour of each other."

"Team work, efficiency and system in handling make the schedule as certain as the time of an express train. Suits are tailored to no more than \$15 and up. The customer is offered a selection of 300 patterns of worsteds, serges, tweeds, homages, velvets and other special cloths—all imported direct from England for the departments. Gibson & Tupper have the full Semi-ready line."

Fifteen lives were lost, a score of persons were injured and property damaged to the extent of \$250,000 when by wind, hail and electrical storm which centered in Missouri and Kansas last week.

The number of workmen at the Krupp works at Essen has been increased from 70,000 to 115,000 since the beginning of the war, according to a Danish student of economics, who has just returned from a visit to the workmen's cottages. In the opinion of the employees the manufacture of six 45 centimetre guns is only a preliminary to the making of heavy guns of immense range. Work at present is practically concentrated on the manufacture of long range artillery.

John F. Bass, an American war correspondent, who has been with the Russian army since last August, declares the Russians are short of ammunition, artillery, rifles, and powder. The shortage is due chiefly, he says, to the fact that a number of their magazines and ammunition depots have been blown up by German spies. He also states that the Russian army has a regular system of espionage in Russia, some of the spies being officers in the Russian army.

Berlin papers declare that the American demand to render ineffective their submarine war against every ship carrying American passengers is wholly impossible. To halt and search merchantmen, they say, would be to surrender all the technical superiority submarines have over other craft. Germany cannot let this submarine weapon be shut up as in a cage whose bars are formed by threatening notes from the United States.

Advices from Vladivostok say that ammunition intended for Russia's armies at the front are arriving there in great quantities. So heavy are the shipments that facilities to transport them by rail through Siberia are lacking. It is in an endeavor to overcome this that the Russian government has placed rush orders for locomotives in the United States.

How About Your Business Stationery?

A FIRM IS OFTEN JUDGED BY ITS STATIONERY. WHY USE RUBBER STAMP WHEN YOU CAN GET NEATLY PRINTED WORK ON GOOD PAPER DONE HERE ALMOST AS CHEAP AS THE PLAIN PAPER. BRING IN YOUR ORDERS FOR Letter Heads, Envelopes, Bill Heads, Statements, Invoices, Labels, etc.

AS WE HAVE ONE OF THE MOST UP-TO-DATE PLANTS IN THE WEST THERE IS NO NEED OF SENDING OUT OF TOWN FOR ANYTHING IN THESE LINES. WE ALSO MAKE A SPECIALTY OF

Bills and Dodgers

IF YOU HAVE ANYTHING IN THIS LINE WE CAN DO IT FOR YOU ON THE SHORTEST NOTICE.

The first four weeks of the Italian campaign has resulted so far in a series of successes from the Trentino to the Adriatic. The latest brilliant action was executed Sunday in the victory at Plava by General Cadorna.

In view of the inciting state of affairs in Mexico, the secretary of foreign affairs, Sir Edward Grey, desires to warn British subjects against visiting that country unless absolutely obliged to do so by imperative necessity.

The Imperial house of commons passed a bill giving the new chancellor of the exchequer a blank check which may be filled in for a sum up to \$5,000,000,000.

Halton Maxin has invented a new position indicator for submarine which will enable the craft to find her position under water, and will be of value to the submarine navy for that purpose. Mr. Maxin, who is an American inventor, has applied for a patent on his device.

The hotel stands on a site covering 25,000 ft. of the main building, of frame construction, was completely burned. Only the two wings were left standing. It was decided to rebuild, and Messrs. Baroit, Blackader and

architects, Montreal, were instructed to draw up plans, under the direction of D. H. Mape, the company's Engineer of Buildings. The restoration of the wings was done by the Engineer of Buildings.

NEW C.P.R. HOTEL AT ST. ANDREWS BY THE SEA

IN April last year the Algonquin Hotel, St. Andrews, N.B., owned by the C.P.R., was almost entirely destroyed by fire. The main building, of frame construction, was completely burned. Only the two wings were left standing. It was decided to rebuild, and Messrs. Baroit, Blackader and architects, Montreal, were instructed to draw up plans, under the direction of D. H. Mape, the company's Engineer of Buildings. The restoration of the wings was done by the Engineer of Buildings.

The hotel stands on a site covering 25,000 ft. of the main building, of frame construction, was completely burned. Only the two wings were left standing. It was decided to rebuild, and Messrs. Baroit, Blackader and architects, Montreal, were instructed to draw up plans, under the direction of D. H. Mape, the company's Engineer of Buildings. Any farmers requiring help at any time will call at the Men's Club. They can get all the men they want.

Messrs. Burton, Edwards, Thomas and Walsh motored over to Glenora Wednesday to take in the stampede there.

Among those who took in the stampede at Glenora yesterday and today were Geo. White and T. Probbie.

J. Brydson, commonly known around here some time ago as "Broncho Bill," is now fighting somewhere in France. A post card was received from him at the Young Men's club stating he was still alive and well.

The Uniteds will play the Moose at the Ball park, Medicine Hat, in the Charity cup series, on Tuesday evening next. Antio to take the team down will leave the Overland corner at 6 o'clock sharp.

This survey is a great reason for garden stuff. Mr. Barclay, a farmer who lives a few miles north of here informed us that he had not a garden in a long time, as his garden was so large as his hen eggs and were excellent condition.

We are glad to see that the band are making such wonderful progress these days under the leadership of W. Connell. From the strains that now emanate from the school house they have certainly got down to good music and are playing exceedingly well together. We hope to hear them give us a band concert before long.

Mr. and Mrs. Suter & Fultz, of Whitewater, W. Va., were guests at the Manse on Thursday evening for their five months' tour of the east. They left Friday morning for the east, intending to spend some time in Nova Scotia and Massachusetts, before returning to the south.

Carpenters are at work enlarging the Presbyterian church at Redcliff. The church was built in 1910 and continued to be for some years the only church in the town. For over two years the congregation has used the Empire theatre for its evening services, its own building being too small for the audience. Now the enlarged building will accommodate all the services and other meetings.

Mr. J. Kinch, of this town, received news this week that his brother, Jack Jones, one of the first veterans to leave Redcliff, had been wounded. He had been fighting somewhere in France. The extent of his injuries is not definitely known, but he is not thought to be seriously hurt as he wrote the letter himself. Jones was with the King's Own Light Infantry and was wounded on May 7th.

Mr. John Beattie, of Eagle Butte, who has been visiting his parents, Mr. and Mrs. P. Wedderburn, narrowly escaped a bad accident last Saturday. He was driving home from Box Springs with Fred Walker when the pole of the democrat broke and the mule was thrown from the rig and the mules continued their mad chase across the prairie with Mrs. Beattie and her infant child in the democrat. Fortunately the wagon struck a telephone pole and came to a stop. Mrs. Beattie and the child escaped without a scratch. Mr. Walker was slightly bruised but not seriously.

A. J. Nicholson sells steamship tickets of all lines. See him before booking your passage to Europe.

Fashion Books, containing free patterns. See these in our east window, Randolph's, Broadway.

Mr. Weir, of Medicine Hat, is here this week presiding at the examinations being held at the school.

Samuel Bradshaw, a farmer living near Brooks, was gored to death by an infuriated bull.

Principal Liggett and K. C. Colter, of our school staff, go to Medicine Hat to preside at the examinations in that city.

Mrs. Cook of Chicago, is at present in town visiting her parents, Mr. and Mrs. John Ellis.

The Third Canadian Mounted Rifles have arrived safely in England. There were a number of young men from Redcliff in this contingent.

Mrs. (Dr.) Brown, who has been visiting friends, and relatives in the east for the past two months, returned home last week.

H. E. Howland has received word from Edmonton informing him that he has been successful in passing his examinations in the Institute of chartered accountants.

Dr. and Mrs. C. H. Kohler and family arrived in town last Monday evening from Minneapolis and will remain here for some time. While here they will occupy Mr. Johnson's home on Third street.

In a letter from Mr. Stimson received this week he states he has been another severe hand to hand fight with the enemy and has come through unscathed. They had been fighting, he said, at very close range with only sand bags for protection.

The Austrian was detained for further investigation after his trial for raising a disturbance on the street when he was taken before Inspector Sheehonan in the Hat. He was allowed out on patrol and must report weekly to the police headquarters.

It is the intention of the management of the Presbyterian church to enlarge and make some alterations in the church building. An addition is to be added to the south side and the building painted inside and out. When completed this will make a big improvement to the appearance and accommodation of the church.

E. Odlin had a letter this week from W. E. C. Christen in which he stated he is still at the aviation school in England. He is making good progress and expects to be called into action at any time.

The members of the local tennis club will entertain the Medicine Hat club to a friendly tournament here next Saturday afternoon. Both courts will be kept busy all afternoon and evening and during the afternoon the ladies will serve refreshments.

The mounted police have been instructed to purchase saddle horses in Alberta for the army. They will visit a number of districts throughout the province and will be at Dunmore on July 12th. The geldings must be in good sound condition, between the ages of four and nine years, and height five feet.

Probably the liveliest place in town these beautiful summer evenings is the tennis court. Every evening both courts are kept busy to accommodate the long list of members who have joined the club this year. The Boston tournament which is now in progress is proving most interesting and the members are most enthusiastic over the games. The executive are at present having a pavilion erected on the grounds for the convenience and comfort of the spectators. It is expected to be completed by the end of this week.

The Prince of Wales attained his majority last Wednesday.

A young homesteader north of Edmonton was poisoned by eating candy sent to him through the mail.

Mrs. T. A. Hicks and family are spending this week in Glenora with Mr. Hicks.

For writing pads, school supplies, magazines, books, library, English papers, tobacco, candies, etc., Bindell's, Broadway.

P. J. O'Connor, who has been down in Iowa for the past few months, returned to town yesterday.

The St. Ambrose Auxiliary held a picnic at the river last Monday. There was a good turnout and a pleasant afternoon was spent.

A troop train passed through here yesterday afternoon with seven coaches full of soldiers. Their destination is unknown.

With today's rain that old Indian has made good his prediction, as this is the 17th day.

The Princess Patricia's Canadian Light Infantry, which has been in the thick of the fighting, losing heavily, is now more fortunate than at any time. They have joined the King's Royal Rifle Corps.

Word has been received in town of a sudden death of Vernon Harris, the two-year-old son of Mr. and Mrs. Conrad R. Lisenauer, formerly of this town, but now of Calgary. The child had only been ill a day and a half. The remains were interred in the Calgary cemetery yesterday.

In the list of Canadian prisoners in the first contingent is the name of Smith (C.I.G.) supposed to have enlisted in Medicine Hat. There were two Smiths enlisted there, one of whom was T. C. Smith, formerly of the Merchants Bank staff here. The news suggests the possibility that this may be T. C., but one received a letter from the 7th battalion, while our Smith was in the 16th. Let us hope it is not him.

A number of our citizens were awakened from their peaceful slumbers last Friday about midnight by a series of weird chants and hahs. The unusual noise was the cause of some speculation but in the morning it was learned that a band of Indians from the Roubidoux reservation were passing through on their summer trip.

With a view of completing arrangements for the erection of an altar in the new meeting of the business men of Redcliff and farmers of the surrounding district has been called, to be held at Box Springs on Saturday evening of this week. Since arrangements were made for this meeting it has been learned that it is impossible for our government help for this season but the meeting will be held as planned, when other matters of interest to the district as well as the elevator proposition will be discussed.

The Ornamental Iron staff met in the office of the plant today at noon for the purpose of making a presentation to one of their number, Frank Blatchley, who is to be married to Miss Lois Riebel, daughter of Mr. and Mrs. J. E. Riebel, of Edmonton. The presents consisted of a silver percolating coffee pot and a very fine carving set in an oak cabinet. The presentation was made by Mr. Hurd, manager of the plant, who on behalf of the staff tendered to Mr. Blatchley and his bride-to-be their very best wishes for a long and happy married life. In acknowledging the gifts Mr. Blatchley made a very fitting reply.

When sending money to Europe buy a Dominion Express Foreign cheque. A. J. Nicholson sells them.

LABOR UNIONS APPROVAL
"Made-in-California" Movement Endorsed by Trades and Labor Members

—Endorsing—emphatically the Made-in-California movement, the trades and labor council at a recent meeting went one further and passed a resolution urging that the city officials make a start in the direction of having all the municipal uniforms made in that city.

During the course of the discussion it was pointed out and backed up by reference to previous resolutions, that the council has been working for the realization of such a program for the past four years.

Other articles pointed out as coming within the scope of the movement were hydrants and other municipal supplies, and several good brands of cigars produced locally, which it was urged, local manufacturers should use.

Chief Reynolds is in receipt of a letter from Geo. Tolpura, who at one time was the Imperial Canadian force at Vancouver and had been fighting in France for some time. He had escaped any injuries at all and is enjoying the best of health.

When Misrepresentation is Necessary
It Proves a Cause to be Unworthy

The Calgary Albertan has ignorantly or deliberately misrepresented the Liquor Act. Read below and satisfy yourself

Chapter 89 of the Consolidated Ordinances of 1905, Clause 120: "When complaint has been made to a justice that any person by excessive drinking of liquor misleads, wastes, or lessens his estates or gravely injures his health or endangers or interrupts the peace and happiness of his family, the said justice shall institute proceedings under part XVIII of the criminal code of 1892 against such person and on finding the complaint well founded, shall by form-I appended hereto, forbid every licensed person in the territories to sell him liquor for the space of two years."

Sub-Section 3 of the same chapter says: further that when any person knowingly supplies such interdiction with liquor he is liable to punishment."

Clause 73 of the Liquor Act says: "The Liquor License Ordinance being Chapter 89 of the consolidated ordinances of 1905 and all amendments thereto are hereby annulled."

The Morning Albertan of Calgary says, editorially on June 12th, 1915: "The law of interdiction is a very good one. It will remain in force just the same after the prohibition not be in force as before. It will not be very much needed when because the whisky traffic will be destroyed. As there will be no legalized places where liquor can be bought in the Province the chances for the interdiction man to get liquor will be very greatly lessened. In fact it will be reduced to a vanishing point."

The Albertan has deliberately made this mis-statement, or else it displays a gross ignorance of the legislation it is supporting.

PEABODY OVERALLS
Wear Like A Pig's Nose

We have them in blue stripe blue and black and black pants.
\$1.35 Per Garment
